

E-BANKING APPLICATION

TRAFEC (Trade Finance Exchange Console) provides you with a comprehensive view of your trade documentary operations and allows you to send secure documentary instructions to many of your banks.

TRAFEC also allows you to control, store and centralize all of your trade instructions in one platform, while maintaining your internal organizational structure and signature process. In addition, the smart features of TRAFEC will increase your efficiency and reduce operational risks.

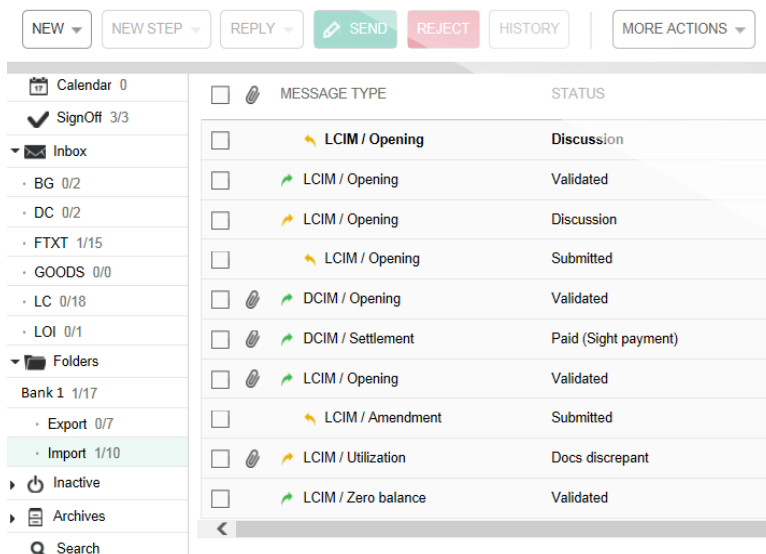

MULTIPLE BANKS

The application can be used to work with **multiple banks**, including BCGe, BCP, BNP Paribas, CA Indosuez, ING and Société Générale.

DIGITAL MANAGEMENT OF TRADE FINANCE

Create, receive and manage all of your trade finance operations in a **centralized application**. Among the instruments available you can find Letter of Credit, LOI, Document Collections, Guarantees and storage and release requests. The smart folder functionality roots messages according to the rules you have chosen to apply.

SECURE CHANNEL OF COMMUNICATION

Rest assured that all of your Trade Finance communication with the bank is made within a **secured and authenticated channel**. The identity of both the sender and the receiver will be known to you, with no other people in between.

APPROVE YOUR OPERATIONS EVERYWHERE AND ANYTIME

Receive instant notifications from the bank regarding the status of your operations. Using the platform will help banks and corporates communicate in the most efficient way.
